

WD ShareSpace™

Network Storage System with RAID

Small-footprint, 4-bay System
Gigabit Ethernet
RAID 0/1/5

Ideal for small offices with
5 to 10 employees who need
centralized storage.

Big time storage that's good for the bottom line.

This high-speed network-attached storage system with capacities up to 4 TB and a space-saving footprint gives you all the benefits of a big time data center without the need for a big time IT department. Perfect for centralizing and sharing data on a small office or home network.

- **Big capacity, small footprint** – Offered in 2 and 4 TB capacities, this small-footprint four-bay system takes up very little space and provides plenty of storage to go around.
- **High-speed access, Ethernet connectivity** – Provides data transfer rates up to 1,000 MB/s when used in a GigE network. Gigabit networking and transfer rates are five to six times faster than other network storage systems. This performance is comparable to USB 2.0 direct-attached storage.
- **RAID capability** – Offers multiple RAID configurations for data protection and speed – RAID 0 (Striped), RAID 1 (Mirrored), and RAID 5. The RAID 5 mode, only available on the fully-populated 4-drive system, is the recommended mode to achieve both high-performance and data protection through redundancy.
- **Remote access software** – Access your files anywhere, anytime using MioNet® remote access services from WD.

WD ShareSpace Network Storage System with RAID

Interface

Gigabit Ethernet

Dimensions

Height: 7.73 in (196.2 mm)
 Depth: 6.30 in (160.1 mm)
 Width: 7.84 in (199.2 mm)
 Weight: 8.14 lb (3.71 kg) (2 drives)
 10.78 lb (4.9 kg) (4 drives)

System Compatibility

Windows® 2000/XP/Vista
 Mac® OS X 10.4.11+, 10.5.2+
Compatibility may vary depending on user's hardware configuration and operating system.

Capacities and Model Numbers

2 TB WDA4NC20000
 4 TB WDA4NC40000

Limited Warranty

3 years

Kit Contents

- Network storage system with RAID
 (populated with 2 or 4 hard drives)
- Ethernet cable
- 2 hard drive mounting rails
 (for 2 drive models)
- AC adapter
- Software CD
- Quick Install Guide

Product Specifications

Data transfer rate: Ethernet 1 Gb/s
 (maximum)
 Operating temperature: 5°C to 35°C
 Non-op. temperature: -20°C to 65°C

WD ShareSpace outperforms USB 2.0 and FireWire 400

Your results will vary based on file size and format, settings, features, software and other factors.

Please visit our web site at support.wdc.com/warranty for the detailed terms and conditions of our limited warranty.

As used for storage capacity, one megabyte (MB) = one million bytes, one gigabyte (GB) = one billion bytes, and one terabyte (TB) = one trillion bytes. Total accessible capacity varies depending on operating environment. As used for transfer rate or interface, megabyte per second (MB/s) = one million bytes per second, and gigabit per second (Gb/s) = one billion bits per second.
